Ravalli County Commissioners

--	--	--	--	--

Dear Ms. Morris:

As the chairperson for the Ravalli County Resource Advisory Committee (RAC), I would like to send a report on the performance of one of your staff members Lindsey Bona. Lindsey presented a program on the Noxious Weeds of Montana and specifically of Ravalli County to the assembled members of the RAC last evening the 23rd of October.

The program was designed for elementary school children and the RAC members were thoroughly charmed by her presentation and wonderful usage of the items that were removed one by one from her Weed Education Trunk. The RAC takes great pride in funding Lindsey on this wonderful educational tool for the children of Ravalli County; however the program could well be presented to any age group, as the subject material is relevant to anyone.

There have been many programs presented to the RAC over the past 6 years, but this program is the only program that the RAC members specifically asked to have a letter sent to her supervisors, apprising them of Lindsey's excellent presentation. We would ask that a copy of this letter be given to her and a copy be inserted into her personnel file.

Sincerely,

WAYNE A. HEDMAN
Chairperson, Ravalli County Resource Advisory Committee
